

# Atmospheric Air Temperature, Relative Humidity and Barometric Pressure Sensor

#### **OVERVIEW**

MBMet 901 series offers highly accurate, fully calibrated and stable measurement of Atmospheric Air Temperature, Relative Humidity, Barometric Pressure, Air Density and Dew Point. Low power consumption, fast response time, and long-term stability makes the MBMet 901 ideal for a wide number of applications ranging from portable devices to product designed for harsh environments. When exposed to sunlight, the sensor must be housed in a Radiation shield.

#### **BENEFITS AND FEATURES**

- Accurate and stable measurements
- Self-loop powered (For Analog Output model) ►
- **Reserve Polarity Protection**
- Each sensor element is individually calibrated
- Field replaceable filter eliminates downtime
- Fast response time ►

#### **TECHNICAL DESCRIPTION**

MBMet 901 series with Radiation Shield

#### **SENSOR SPECIFICATIONS**

| Surge Protection          | 1KV   |  |  |  |  |
|---------------------------|---|--|--|--|--|
| Ingress Protection Rating | IP65 (with radiation shield)  |  |  |  |  |
| Sensor Protection         | Filter material : Polypore Porous plastic Filter Element,<br>Pore size : FGX 5 - 10 microns |  |  |  |  |
| Dimensions                | Length : 210mm (175mm without mating connector)   |  |  |  |  |
| Weight (packed)           | 342g (with mating connector and standard 5 meters cable)                                    |  |  |  |  |

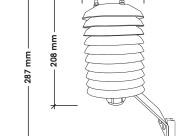

## RADIATION SHIELD SPECIFICATIONS

| Housing Material  | Double louvred UV stable Polycarbonate Plastic plates with Stainless Steel screws |  |  |  |  |
|-------------------|---|--|--|--|--|
| Housing Plates    | 10-Plates Radiation Shield  |  |  |  |  |
| Dimensions        | Outer diameter : 123mm, Height : 287mm (with mounting bracket)                    |  |  |  |  |
| Weight (packed)   | Approx 750g (with mounting accessories)   |  |  |  |  |
| Waterproof Glands | M32*1.5   |  |  |  |  |

For example : MBMet-901-FBA5000

Parameter : Ambient Temperature + Relative Humidity + Barometric Pressure + Dew Point + Air Density Output : RS-485 Modbus with Radiation Shield and Pole Mounting Accessories, Cable Length : 5 meters

**M. B. Control & Systems** with an experience of 35+ years are the leading manufacturer and solution provider in Electrical Automation and Instrumentation sector. Our weather station **"SURYA"** and sensors **"MBMet series"** are assembled and manufactured in Kolkata, West Bengal, India, where we have our R&D, manufacturing, testing and support team ensuring high quality design, product and customer support. Every sensor has been designed to provide scientific-grade precision and accuracy. They are tested rigorously in-house before shipping. The experienced R&D team puts in best efforts refining and upgrading the sensors to ensure minimal sensor routine maintenance.
